Objectives

AI & Data Science Engineer passionate about creating intelligent systems, data-driven applications, and scalable digital solutions. With expertise in Artificial Intelligence, Machine Learning, Data Science, Agentic AI, and Business Analysis, I develop innovative technologies that transform complex challenges into impactful solutions, bridging the gap between data, business, and exceptional user experiences.

Skills

Programming & Querying: Python, SQL, Java

AI& Data Science: Artificial Intelligence, Data Science, Machine Learning, Data Analytics

AI & Automation: Agentic AI, AI Automation, Prompt Engineering

Business Analyst: Agile & Scrum, Stakeholder Management

Databases: MySQL

Tools: Git/Github, Docker(basics), Linux(Basics)

Internship

Zgrow Solutions

Chennai, India

Generative AI& Data Science Intern

June 2025

- Built and experimented with Generative AI applications using LLMs, RAG pipelines, and transformer-based models.
- Worked on data preprocessing, model development, and AI-driven solutions for real-world use cases.
- Collaborated on AI projects involving machine learning, deep learning, and application deployment.

Akodefy InfoTech

Coimbatore, India

Business Analyst

June 2026

- Gathered and analyzed business requirements by collaborating with clients and stakeholders to understand project objectives and deliver effective solutions.
- Prepared Business Requirement Documents (BRDs), user stories, functional documentation, and process workflows to support the software development lifecycle.
- Worked closely with cross-functional teams in Agile/Scrum environments, facilitating requirement discussions, sprint planning, and ensuring successful project delivery.

Education

B.Tech – Artificial Intelligence and Data Science

2023 – 2027

Dr. N.G.P. Institute of Technology, Coimbatore

CGPA: 8.43 (Till Date)

Higher Secondary School-(HSC)

2023

Thambu Higher Secondary School, Coimbatore

Score: 88.6%

Secondary School Certificate (SSLC)

2021

Thambu Higher Secondary School, Coimbatore

Score: 80%

Projects

1.EduSense – AI-Powered Sign Language Learning Platform

- Bridges the communication gap for people with hearing and speech impairments through real-time sign language recognition.
- Makes sign language learning and communication more accessible with AI-powered learning tools, OCR, and progress tracking.
- Tech Stack: React.js, Vite, TensorFlow.js, HandPose, FingerPose, Tailwind CSS, SQLite, Tesseract.js

2. SmartShield URL – AI-Powered Secure URL Shortener

- Protects users from phishing and malicious websites by analyzing URLs before redirection.
- Provides secure link management with AI-powered threat detection, real-time analytics, and QR code generation.
- Tech Stack: React.js, Vite, Tailwind CSS, Framer Motion, Recharts, Node.js, Express.js, MongoDB Atlas, JWT, bcrypt.js

3. Smart Campus Analyzer

- Identifies at-risk students using Machine Learning to help institutions take early intervention measures.
- Enables data-driven academic decision-making through predictive analytics and interactive dashboard.
- Tech Stack: Python, Scikit-learn, Pandas, NumPy, Streamlit, Matplotlib, Machine Learning

Achievements

- MSME 2024 – Submission Level.
- Active participation in national paper presentation events at CIT.
- Active participation in SIH hackathon – submission level.
- Active participation in MIT paper presentation
- Active participation in the Descience Club Hackathon and secured a place as Finalist.

Certifications

- **Introduction to HCI – NPTEL (Elite + Silver):** Completed real-world HCI applications and protocol operations.
- **Design and Implementation of Human Computer Interfaces – NPTEL (Elite):** Focused on usability, UX metrics, and accessibility-driven UI design.
- **mycaptain- Business Analytics Course-**Gained knowledge in business analytics, data analysis, and data-driven decision-making.
- **Mycaptain-** Gained Knowledge in Data Analytics with python and data-driven insights.
- **Forge-Data Visualisation: Empowering Business with Effective Insights-** Hands-on experience in data visualization techniques to transform business data into meaningful insights.

Leadership & Responsibilities

- Event Coordinator – Alzenixx: Coordinated technical events and mentorship activities.
- Event Coordinator – Prompt Forge & Paper Presentation: Managed 100+ participants with team supervision and operations handling.
